DJ'S DREAMS

Instructions

Use 1 strand for backstitching. Model stitched on 18 count Cameo Peach Aida #358-104 from Wichelt Imports.

Cut a piece of fabric that is 56 stitches wide by 124 long. Starting 8 stitches from the top and 8 stitches from the left side, begin backstitching the pumpkins as shown. Use the color key below. Follow the rest of chart to the bottom of the row of pumpkins. When completed, fold the fabric in half from the bottom and inside out creasing it 6 stitches from the bottom row of pumpkins.

Seam up left side 4 stitches from the start of the row of pumpkins and the right side 4 stitches from the end of the pumpkins using backstitches in DMC 967 and then turn right side out again. For the draw string fold the raw edge in and crease 4 stitches up from the top of the row of pumpkins and use a long thread made up of 4 strands of DMC 3853 and insert it at the dot, leaving a long tail, and then backstitch it around the opening as shown. When you get to the left seam go down 1 stitch from the seam on the front and come up 1 stitch from the seam on the back. Cut strings to desired length and knot the ends.
