DJ'S DREAMS

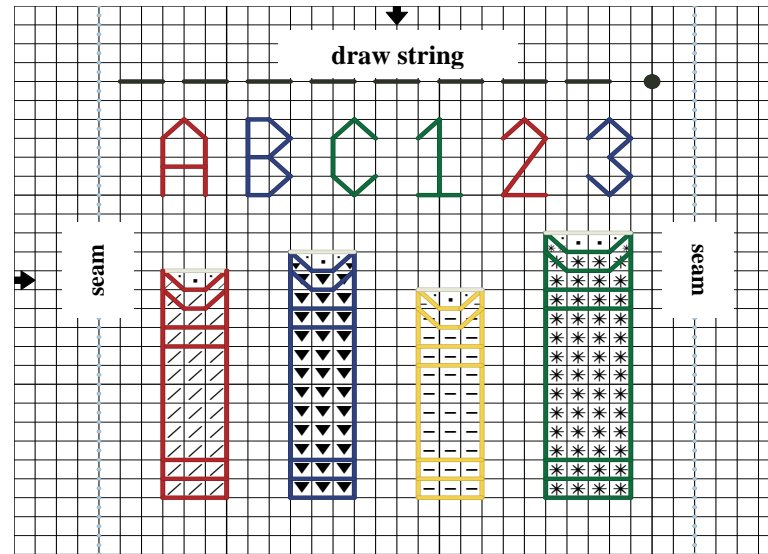

Instructions

Use 2 strands for cross stitch and 1 strand for backstitching. Model stitched on 18 count Wedgewood Aida from Wichelt Imports.

Cut a piece of fabric that is 36 stitches wide by 58 stitches long. Starting 6 stitches from the top and 7 stitches from the left side begin stitching the letters and books as shown. Use the color key below. When completed, fold the fabric in half from the bottom and inside out creasing it 3 stitches from the bottom of the books.

Seam up each side 3 stitches from the side of the books using backstitches in DMC 800 and then turn right side out again. For the draw string use a long piece of thread made up of 1 strand each of DMC 666, 700, 726, & 797 and insert it at the dot, leaving a long tail, and then backstitch it around the opening as shown leaving the raw edge as a ruffle. When you get to the left seam go down 1 stitch from the seam on the front and come up 1 stitch from the seam on the back. Cut strings to desired length and knot the ends.

To stuff add one drop of your favorite scent to a clean cotton ball and insert that inside the sachet. Pull the drawstring tight and tie in a bow
